Vision, Mission & Values

Our mission is to supply the world with authentic, unrefined Himalayan pink salt, retaining natural minerals without additives. We distinguish ourselves through direct access to Khewra deposits, complete control over extraction and packaging, international food-safety compliance, and custom solutions. We value Purity, Quality, Traceability, Trust, Excellence, and Responsible Growth.

What Sets Us Apart

- Direct access to high-quality salt deposits in the Khewra region.
- Control over extraction, washing, grading, and packaging.
- Compliance with international food-safety and export requirements.
- Custom packaging and private-label solutions for global partners.

FROM MINE TO FINISHED PRODUCT

1 Extraction	2 Sorting & Washing	3 Crushing & Grading	4 Quality Testing	5 Packaging	6 Export Logistics
Rock salt mined directly from Khewra deposits using controlled, selective methods.	Raw rock sorted and washed. No chemical bleaching or artificial processing.	Crushed and screened into grain sizes from fine table salt to lamp-grade chunks.	Batches tested for mineral content, moisture, heavy metals, and microbiological safety.	Packed in food-safe materials in retail-ready or bulk formats.	Palletised, documented, and shipped through Karachi Port or Port Qasim.
